Doctors Corner

As the leaves begin to turn color and the seasons change, it reminds me of how quickly time passes. Before we know it, we will be celebrating the New Year. Now, before this year comes to an end, you may want to take advantage of your unused insurance benefits. Insurance plans provide coverage up to a certain dollar amount annually and cannot be carried over into the next year. With this in mind, we encourage you to schedule any diagnosed treatment to ensure utilization of benefits and scheduling availability before time runs out. We look forward to seeing you. It has been an honor to share this year with you.
